Thomas E. Greiss : Atlas for the Second World War: Europe and the Mediterranean (The West Point Military History) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Atlas for the Second World War: Europe and the Mediterranean (The West Point Military History):

Be Forewarned By commodore64 The title of this atlas is somewhat misleading. The maps only show ground operations. You could go through the entire manual and never guess that the Air Force or Navy ever participated in the European and Mediterranean theatres. The large sized maps appealed to me, however, this atlas is to be used in conjunction with a West Point textbook and is a little use to a World War II buff. Shop elsewhere.
