Mikael Bodlore-Penlaez : Atlas of Stateless Nations in Europe before purchasing it in order to gage whether or not it would be worth my time, and all praised Atlas of Stateless Nations in Europe:

This unique atlas takes us on a panoramic tour of the stateless nations in Europe today. It maps their physical and linguistic character, and graphically summarizes their history, politics and present position. The Alsacians, Basques, Corsicans, Frisians, the Scots and the Welsh are all peoples who are not sovereign and are fighting for their cultural and political identity. Others - the Irish, Poles and the Baltic nations - were recently stateless but are now fully fledged nation states. As fascinating for the student as for the activist, this atlas depicts the marvelous mosaic that is Europe

today, and paints a picture of a future Europe of flourishing small nations: peaceful, self-supporting and lively.
