**FRCSE, FRCPI Abdulla A. Al-Baker : Atlas of the Qatari Method for Treatment of Burns** before purchasing it in order to gage whether or not it would be worth my time, and all praised Atlas of the Qatari Method for Treatment of Burns:

This atlas presents the experience in the management of burn wounds in the State of Qatar over the past ten years. The technique used is inspired by an old tradition used by natives to treat wounds, especially circumcisions, whereby the wound is immersed in the salty waters of the Arabian Gulf.
