ITMB Canada : Australia 1:3,500,000 Travel Map (International Travel Maps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Australia 1:3,500,000 Travel Map (International Travel Maps):

2 of 2 people found the following review helpful. Great map
By Vanessa Lee
This is the best map of Australia in the market. I used the map on a trip and it came in very handy. It clearly showed all the country in large scale 1:3,500 000. All the road in the map very current. It is plastic paper. Have useful index and a lot of insets. I and my husband very love this map.

A double-sided, indexed map of Australia printed on light, waterproof and tear-resistant plastic paper, with large, clear street plans of central Sydney, Melbourne and Brisbane showing selected hotels and places of interest. Elevation colouring, in feet, shows the topography, with peak height given on both feet and metres. Names of various mountain ranges, deserts and other geographical features are also provided, and aboriginal lands and selected national parks are marked. The map is best used as an overview of Australia's network of main highways, annotated where appropriate with their names, plus selected connecting roads and outback tracks. Driving distances are shown on main routes. Railways lines are included and local airports are marked. A range of symbols indicate various places of interest. The map has latitude and longitude lines at intervals of 2 and a separate index for each side.

Australia was one of the first non-South American titles published by ITMB years ago and is one of the most popular travel titles we've ever released. This edition is a modest updating of the previous edition. We have not changed the cover picture, price, or ISBN. As a result, this title will not be eligible as a return. The new edition will just flow into the regular consumption process. The same insets of Sydney, Melbourne, and Brisbane are included and the durable nature of plastic paper makes this map the preferred option for visitors. --itmb
About the Author
ITMB is a leading publisher of travel maps covering the whole world. They have published an extensive series of travel and city maps of Australia, New Zealand and a number of islands of the South Pacific.
