National Geographic Maps - Reference : Australia Classic [Tubed] (National Geographic Reference Map)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Australia Classic [Tubed] (National Geographic Reference Map):

1 of 1 people found the following review helpful. Bought a "New" map, received a used one By Alex M The map has very clearly visible blemishes, including tears, warping, and even a drop of what appears to be either tomato sauce or blood. It was very clearly a previously used product. I bought this as a gift for my parents, but it is not in any shape to be given to them. One star for very poor used-product screening. Definitely would not buy again. 0 of 0 people found the following review helpful. Four Stars By Joe Gaboury excellent map, though it was damaged on the ends in the packaging. 1 of 1 people found the following review helpful. A present for my grandson. By Gary B We are travelling around Australia and needed a map to show our grandson where we are when we speak to him on Skype. We are also sending a postcard from the main places we visit. This map is just the right size.

National Geographic's wall map of Australia is one of the most authoritative maps of the Land Down Under. The Classic style map uses a bright color palette featuring blue oceans and stunning shaded relief that has been a signature of National Geographic wall maps for over 75 years. This map features thousands of place names, including primary and secondary towns, accurate boundaries, parks and protected areas, aboriginal lands, and transportation infrastructure such as airports and highways. Australia's famous coastal reefs including the extraordinary Great Barrier Reef are shown as well. Coverage also includes Tasmania and the Coral Sea Islands. The map is packaged in a two-inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and

other pertinent information. Map Scale = 1:6,413,000 Sheet Size = 30.25" x 27"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
