Stella Martin : Australian Wildlife: Wildlife Explorer (Bradt Wildlife Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Australian Wildlife: Wildlife Explorer (Bradt Wildlife Guides):

0 of 0 people found the following review helpful. Five StarsBy REAL writerGood book. Super pictures. Wish it were

bigger, though. 0 of 0 people found the following review helpful. Five Stars
By Arthur L. Manning
good product for a good price and quick service
2 of 2 people found the following review helpful. Outstanding Wildlife book!
By Marilyn A.
This book is loaded with excellent photos and information about the unique creatures of Australia. I bought this as a gift for my son who just moved to Australia, so I was only able to view the book for a short time. However, it was easy to see the great quality of the book. I might just buy my own copy!

Australia's ancient continent tops the list for wildlife-seeking travellers with its unique creatures roaming diverse habitats, from eucalyptus-dotted woodlands to the awe-inspiring beauty of the coral reefs. You'll find all the essential details of a reference book from biology to behaviour alongside practical, on-the-ground information in one handy, readable guide. Wildlife writer Stella Martin guides visitors through dense rainforest and across parched deserts to discover how bizarre creatures evolved in isolation. Martin combines the encyclopaedic knowledge of David Attenborough with the enthusiasm of the late Steve Irwin. Find out why some fish change sex and how thorny devils drink. Bradt's indispensable Australian Wildlife will have you up at dawn and out with your binoculars in the outback.

'Bradt Travel Guides simply have the best wildlife coverage of any of the popular guide books.' BBC Wildlife 'This guide is a must-have for wildlife lovers on their way Down Under' Wanderlust 'A definitive, well-arranged and accessible handbook on all manner of Aussie animals, from invertebrates to mammals.' Weekend Australian "We all felt that this book was an excellent guide for visitors to Australia with an interest in natural history and are sure it will do well." Dr Noel Tait, Royal Zoological Society, NSW, Australia
About the Author
Stella Martin has lived in Australia for 20 years, working as a natural history writer for Queensland Parks and Wildlife Service. She co-authored In Malaysia, published by Bradt in 1986.
