12 of 12 people found the following review helpful. for those who pack or camp for the first timeBy M. HammerschmidtWhile There is some good information in this book for those who are very inexperienced in the areas of backpacking or camping in general, I would hesitate to recommend this to anyone who has already had the pleasure of camping or spending some time in the outdoors. Reviews very basic elements of camping such as choosing tents, sleeping bags and apparel which anyone who has spent time outdoors will already have done. Has some other very basic information as well.0 of 0 people found the following review helpful. Two StarsBy tina sandovalThis book wasn't as interesting as I thought it was going to be, mostly all common sense.11 of 12 people found the following review helpful. No helpful information in book.By A CustomerI was very disappointed in this book. I have camped, backpacked, and hiked a fair amount and was hoping for helpful information on doing these activities with children. The information is very basic. If you have been camping even one time, you will already know everything in this book. If you have never been camping, with or without children, you might find a few things helpful. Most of it is common sense.

A book every parent should read before heading to the woods with the kids. Covers all aspects of outdoor living, from clothing, food, packs, and other equipment, to keeping the children happy, healthy, and safe on the trail.

From the AuthorThis edition, An Authors Guild Backinprint.com Edition, is an exact replica of the third edition of *Backpacking With Babies and Small Children*. Everything is the same except for the cover--my granddaughter the artist Sarah Silverman drew this cover, showing her aunt with baby cousin. The cover of the original third edition shows a photo of a family of three hiking across a meadow. When that book went out of print, I was grateful that the Authors Guild provided an opportunity with iUniverse to bring it back.About the AuthorHiker, camper, teacher at high school and university levels, skier, remedial reader and cookbook author, world traveler, talented interviewer, author of *Backpacking With Babies and Small Children* (in print for almost twenty years) and her most recent book, *Camping With Kids* (Wilderness Press), mother and grandmother Goldie Gentler Silverman brings all her skills and interests to everything she does.
