SUPERB By Patrick J Sullivan Great little book of phrases... portable, accurate, can serve as the beginning of comparing Scandinavian languages, for future deeper study! /Quality far exceeds the meagre price charged for this gem! 0 of 0 people found the following review helpful. Generally a good reference By Jeff LI was familiar with this format from other Berlitz language books and therefore it was easy to find what I needed. It isn't very helpful if you want to translate signs/other text into English. 11 of 11 people found the following review helpful. Good phrase book to get by. By David Cowan This is a handy pocket sized phrase book that is very handy to communicate the very basics. If you want to get in depth with the language this is not for you. If you

want to learn a few basic phrases then this is for you. Many people spoke my native language in Scandinavia which made it easier to get by with the many interactions I dealt with but it was fun to make attempts at learning some of the languages. Have a go at it. Fun Stuff!
