I am concerned that what is listed may be out of date ... a trail can change in 18 years. I'll find out in July.13 of 13 people found the following review helpful. Very good ride planning guideBy B. A. ZimmermanWhile there are several multi-day trips in the guide, this book is targeted at the more serious recreational rider who is looking for day rides of 25 to 60 miles. It

covers quite a large area, mostly in Washington State, with general and detailed descriptions of the routes, augmented by line maps. One nice feature is that it details the vertical profile of each ride so you can see what you're getting into when it comes to climbing hills at various mileage points in the rides. I've ridden about 1/3 of the routes and have found the rides well planned and accurately described. There is always a place to stop for a break near mid-way, and often alternatives to shorten or lengthen the trip. A great book to get you in touch with quiet roads or bike trails that you otherwise may never discover. 7 of 10 people found the following review helpful. Identifies great week long bicycle tours in the Northwest By A Customer Good reference of some of the favorite multi-day bicycle tours in the Northwest.

Great guides for the enthusiastic biker that outline a diverse array of tours through scenic terrains all over the United States. With challenging treks for the lean, mean veteran and pleasant excursions for the Sunday cyclist, these books have something for everyone.

From the Back Cover Fifty great treks through the spectacular scenery of the Pacific Northwest (British Columbia, Washington, Oregon, and Idaho) with total geographic coverage for the enthusiastic biker. Outlined are a diverse array of great tours, with challenging treks for the lean, mean veteran and pleasant excursions for the Sunday cyclist. Included is a journey along the former logging roads showcasing the striking Olympic Peninsula national forest, a ramble from the outskirts of Victoria, B.C. through lush farmlands and forest, and a ride on the Centennial Trail through Spokane, Washington, along a city river linking parks and historical sites. Every ride profile includes a rating of difficulty, information of general interest, elevation profiles, places to eat/rest, detailed directions and mileage, as well as a useful map. An appendix of touring clubs and other cycling resources is also featured. Todd Littman is past president of the Bicycle Federation of Washington and former state representative for the League of American Wheelmen. Suzanne Korts ecological background has provided her with a singular ability to select cycling routes for their intrinsic beauty and environmental interest. (5 x 7, 288 pages)
