Very good advice...By Dubyac99I have not gone to Disneyland since buying this book, but can say, from a recent trip, 3 years ago, this is excellent advice, and great reading. It actually gets you excited for a trip to Disneyland, or other southern California destination. The book includes Knott's Berry Farm, Magic Mountain, Universal Studios, and light advice on San Diego, and other closer destinations, to

Disneyland. I haven't been this excited to visit Disneyland, since I was a kid, and now I have two to share it with. Thanks to the writers of this fine book. Thank you, thank you thank you!!! Hot Dog! Hot Dog! Hot diggity Dog!!! MC White said: Awesome!!! 1 of 1 people found the following review helpful. Great time at Disneyland! By Melissa This is an excellent guide for Disneyland. I wish I had followed it's advise regarding the age guidelines for rides. The first ride I let my 4yr on was one that the book advised against. I spent the next 2 days convincing him that the rides at Disney are fun and safe. ( I took him on Roger Rabbit's toon car spin - very loud and hectic) I would highly recommend this even to experienced Disney travelers if it is the first time with kids. 0 of 0 people found the following review helpful. Is what it Is. By J. Summers It is exactly what it says. Someone's suggestion on how to vacation in California. It was helpful but most of the information I had already recieved by talking with friends about their vacations. It isn't only about Disney either. It includes other area theme parks - all overviews. Separate books with more detail would be more helpful.
