I try and get one whenever I go on a trip and am always really happy with them. Very detailed and colorful. Full of interesting pieces of information not just of the cities/state/country but travel information like getting there, hotels and more. Eyewitness is my go to book.Unfortunately, I didn't realize they didn't have a book on the state of Georgia or the south east so I bought the USA guide.. The USA guide is very big, very nice and includes information on all 50 states, but there are only four pages total on the state of Georgia. Really, four? I got more information from the Trip Advisor website then from this guide. Very disappointed, but I will keep the book.I don't recommend this book if you are looking for in-depth information on the state of George or the states surrounding it. Hopefully Eyewitness reads this and creates a worthy book for Georgia or at least the South East states. It deserves better than this.0 of 0 people found the following review helpful.
