We didn't go to Petra or Sinai. It was helpful at a few other locations, but primarily focused on Jerusalem. We also use Lonely Planet, particularly for travel planning ahead of time, but find the Eyewitness books very valuable as we are traveling. The illustrations are awesome. 4 of 4 people found the following review helpful. Doring Kindersley does it better! By Judith Abraham Venice, Berlin, Switzerland - The Doring Kindersley guidebooks have remained the last word in guidebooks for me. The writing is clear, and interesting. The photographs are many, and the cutaway illustrations of important buildings and historical sites are thoroughly enchanting - and spot on! After a trip, they are worth keeping: With the information that is packed into each one - history, social custom, way of life, food and wine, architecture and art - each is a reference book deserving of a permanent place in anyone's library. 3 of 3 people found the following review helpful. Excellent Comprehensive Book By Marlene Urbach This is not just a travel book. It really gives the reader a history lesson that helps put things in perspective. There are timelines of historic events for quickness as well as just enough detail to give an understanding without being a huge read. Beautiful photos of all the sites are included. I have purchased Eyewitness Travel Guides a number of times. They are my first choice in travel guides when I'm planning a

trip to a historic area. Excellent detailed information and maps are all part of it. Highly recommend these books. Beautiful paper as well.
