2 of 2 people found the following review helpful. Riveting Eye-OpeningBy Andrea DavisWow! This book completely shocked me! I had no idea that things were so backwards in Dubai. I always thought of Dubai as a metropolitan city with renowned architecture and world-class shopping. I assumed their politics and institutions would reflect the wealth and worldliness the city boasts. The author of the book looks past that facade and discovers dark and troubling truths. I, like the author, am from the United States and I know we do some things that may seem odd to the rest of the world, but the stories the author reveals about Dubai would seem morally corrupt to anyone. With ultra conservative laws and policies, Dubai seems like it would be an absolute horrible place to be a woman. It is truly scary. Lets hope more people read this book and continue to do their own digging. We need correct peoples perception about Dubai and the UAE. Im so grateful the author wrote this expose. It completely changed my opinion of a city I once longed to visit. I highly recommend this read!

1 of 2 people found the following review helpful. CaptivatingBy LavenderRainThis was a captivating read that I couldn't seem to put down. The wicked picture painted by this expose is indeed quite chilling and eye opening. I was intrigued by the stark contrast between the external austerity of Dubai and the darkness lurking beneath the surface. It opened my consciousness to how wealth and waste can destroy anything worth having. It's an entertaining read for anyone interested in learning more about the inner workings of the Middle East. The author's style is both active and colorful. While billed as true and overflowing with facts, it pleasantly flows like crime fiction.

1 of 1 people found the following review helpful. Very informative book. A must read!By Avid ReaderI have spent quite a bit of time in Dubai. I have seen the labor camps referenced in the book, that the imported lower skilled labor's are housed in. I have also seen how the maid's are sometimes treated by their host family's. So I have no problem believing these stories. I have never seen so many amazing and compelling stories put together in one collection as what's in this book. I can whole heartedly recommend reading this. Stories like these are abundant in Dubai and the greater region. It's hard to believe that this is out of a country of only a couple of million people.

You will instantly be taken to the other side of the world because this book offers an extraordinary glimpse into unjust, cruelty and suffering in Dubai, United Arab Emirates. These factual short story collections allow you to witness the torment, sexual assault, bizarre murders, abandoned babies and life in the Middle East, besides unusual and humorous ones. The narratives you are going to read gives you a rare chance to see how each compelling true story unfolds. I compiled these incredible accounts for 3 years while living there with my spouse. Im passionate about sharing this insight as nothing is what it pretends to be in Dubai, the city of gold. For you, I'm confident you will be horrified and can take away how lucky you are to have what you have and to live where you do. Never before has anyone had access to reveal so many inside secrets. Tap into the Middle East on the other side of the world to take a look!

Torture: A 45-year-old Emirati woman is on trial for torturing her maids. She beat them regularly, forced them to drink bleach and locked them in a bathroom. She even made the two of them strip naked so she could take pictures then threaten to publish them. This abuse became known when..... Dubai Housemaid Sentenced to Death, by Firing Squad?
