**Compass Maps Ltd. : Dublin (Imap Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dublin (Imap Guide):

I bought this map for Paris too and loved it. No need to re-fold a giant map, you just shut it and it folds on its own. Neat and clean. You can use a highlighter on it. Includes a map of Phoenix Park, too which is a lovely stop in Dublin. Includes a map of the greater Dublin area, and main bus/car routes in and out of Dublin. I can't wait to go back to Ireland!0 of 0 people found the following review helpful. Small but good details, easy to refoldBy Just some guyShipped fast, good price. These maps are not much bigger than a cell phone, but provide details of the prime tourist areas of Dublin. The popout design makes unfolding and refolding easy, almost automatic.0 of 0 people found the following review helpful. great traveling companionBy teacher in WallingfordI have Popout maps of New York, Paris, Washington DC, Boston, and now Dublin. From now on I will purchase any Popout map available for my travels.

Dublin popoutmap is a portable, comprehensive, and multipart map to this famous Irish city. Complete with easy-to-read color maps, this pocket-size guide includes at-a-glance travel information about Dublin. The PopOut maps detail the center of the city as well as its general environs; three smaller maps detail Temple Bar and transportation around Dublin. Additional details show places of interest, museums, parks, and more.
