By rotten03 This collection provides a very unique window into another time and place. It's a beautiful piece for your collection and would appeal to both history lovers and photography lovers alike. This book contained many images unlike anything I had ever seen before and the quality is really, truly amazing. Unlike some photography books that you tend to absentmindedly flip through, the subject matter in this collection is so interesting and archaic that it really draws you in. I spent a lot of time examining the photos carefully and I definitely will revisit the images again. I believe this is definitely worth the price. A great gift idea for yourself or someone who loves to travel!

By Adam This is the second copy of Burton Holmes' album which I have ordered and received through . One went to my wife as a gift and the other to our friends for their 25th anniversary of wedding - as a stimulation for a honeymoon trip. I run across this book by accident when waiting for a plane at the lounge of Istanbul Airport. I almost lost my connection because i couldn't stop looking at fascinating photographs from most famous sites taken by Holmes when he visited them long before tourist industry developed. Then I tried to spot it via internet and finally got it . I can recommend it to anyone who likes traveling but would like to see the spirit of things and locations as they originally looked like.

By Manini Gupta Love the pictures, evoke all kinds of sentimental images, and you half expect Grace or Humphrey to waltz through one of the frames.

Wanderlust: Burton Holmes, the man who brought the world home

About the Author In the 1960s, Genoa Caldwell was the New York-based photo researcher for the London Sunday Times, as well as photo editor for both Black Star and Magnum. While operating her own photo agency in Los Angeles in the 1970s, Caldwell was introduced to the work of Burton Holmes and became private archivist for the extensive and unique photographic collection. Caldwell has maintained the collection for over 30 years and has lectured and published on the life and work of Burton Holmes.
