Tim Matson : Earth Ponds A to Z: An Illustrated Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised Earth Ponds A to Z: An Illustrated Encyclopedia:

8 of 8 people found the following review helpful. worthlessBy jack of all tradesReally..."Earth Ponds A to Z an Illustrated encyclopedia" is EXACTLY that,For example: "Beaver", with a picture and explanation of what a beaver is. "Backhoe" with a photo of a backhoe and an explanation of what one is. Where is the Cookie Monster and Ernie?It would be funny if I hadn't paid \$8 for this POS. It goes in the Goodwill pile.0 of 10 people found the following review helpful. ShippingBy Charles W. CruseThe book was fine. The shipping was terrible. USPS took 3 weeks to deliver after it was shipped.14 of 18 people found the following review helpful. Building a PondBy A. BrownI recently bought 11 acres in East Texas and this book is very instermental in knowing where to build my pond on it. I own several bookson the subject and this is one of the best.

From the author of Earth Ponds, the definitive reference guide to constructed earth ponds. This A-Z guide provides pond owners and builders with an at-a-glance reference to answer any question. From acid rain to zooplankton, pond guru Tim Matson defines and explains more than two hundred terms associated with pond building and maintenance, both familiar and obscure. Here the reader will find descriptions and definitions of all significant pond elements, including structural features, construction materials, water conditions and treatments, aquacultural topics and crops, environmental concerns, government support and regulatory agencies, landscaping, and more. More than two hundred illustrated entries distill the latest information on ponds into a unique and definitive companion for pond owners and builders. 200+ black-and-white illustrations

About the Author Tim Matson, a writer and aquaculture consultant, has been advising people how to build and maintain ponds and wetlands for more than 25 years through Earth Ponds, his pond design and restoration consulting firm. His writing has appeared in Yankee, Harrowsmith Country Life, Country Journal, and Vermont Life. He lives in Thetford Center, Vermont.
