From Brand: DeLorme : Eartha Travelog (Eartha World Travelog) before purchasing it in order to gage whether or not it would be worth my time, and all praised Eartha Travelog (Eartha World Travelog):

0 of 0 people found the following review helpful. Useful and InterestingBy apoemWe have really enjoyed looking at this book. It is a good book of maps.The downside is that in some ways it is too large. It makes storing it difficult and turning the pages difficult.One of the things we have really enjoyed though is the little tidbits about the various countires sprinkled through out this book and the very detailed maps. We like looking at it and reading a sentence or two about favorite foods of the region, famous events or places around the country.0 of 0 people found the following review helpful. interesting, but slightly datedBy zknowles89The Eartha travelog is a beautiful and well-put together

book. It provides great tidbits of information about many diverse locales, however, the majority of the geopolitical information is totally dated.0 of 0 people found the following review helpful. Wow!By John B.One of the best and finest 3 dimensional looking maps I have ever seen in a World Atlas, the color and shading contrasts are phenomenal.
