Wendy Tung : Easy Chinese Phrasebook Dictionary before purchasing it in order to gage whether or not it would be worth my time, and all praised Easy Chinese Phrasebook Dictionary:

When I went to China, my friend decided it was also good for her to learn English, so I gave it to her. I bought another on , but my fried who went to Guangzhou to teach English decided he didn't have enough time

to buy it himself, so I gave him that one. Now, I am leaving for China soon to teach ESL, so I'm buying my third copy. I may have to disguise it to prevent further losses. This book is well organized and it's easy to find the part you need in a hurry. Because it is engaging enough, it is not only for pulling out when you need it. You can actually sit and read it without falling asleep. Learning Chinese is hard enough, so it's nice to find a book that helps take the edge off a little bit.7 of 7 people found the following review helpful. Good for basic wordsBy A CustomerThis book is good for basic words but lacks background information that would be helpful. Still, a greater starter book!0 of 1 people found the following review helpful. Easy ChineseBy Donald J. MichaudI received the book on schedule and the book was in the described condition. I am completely satisfied.

Two books in one a practical phrasebook of essential Chinese vocabulary and expressions, plus a 3,500 English/Chinese dictionary.
