Planet counterpart, it is easier to use and more practical and comprehensive. The chapters cover a wide range of topics and vocabulary. Moreover, the phrases are carefully selected and structured so that reader can understand and be able to make his/her own sentences as opposed to just memorizing them parrot-fashion. For instance, sentences like: What time doe the bus leave? followed by What time does the train leave, etc. It is thus possible for the learner/user to substitute words and be able to communicate by creating their own phrases. This book is an excellent complement to Reza's grammar books and it should be read while listening to the dialogues on Youtube for the correct pronunciation. There are just the occasional orthographical errors on some pages, e.g. a missing or wrong letter in the transliteration. However, this does not detract from the quality of the work and can easily be remedied in a second edition. I look forward to his next publications and lessons shared on the internet. 0 of 0 people found the following review helpful. Easy Persian Phrasebook is going to be useful for you By Rebecca M.
