Because this book had full sentences and phrases that I would be using in travel and real life situations, I decided to buy it. For \$2.00, this book has taught me more in a week than I learned in 8 weeks with Duolingo. Now instead of learning to say things such as, "My dog likes to drink water," and "The penguins don't like my sister's blue dress," I can actually order in restaurants, ask directions, shop, ask for help, etc. To be useful, you will either have to carry the book around with you, or make flashcards and memorize the questions and answers. I recommend both. The book also has pronunciation guides to improve your accent. If you are interested in conversation rather than grammar, you will really be pleased with this Dover edition. 0 of 0 people found the following review helpful. **A Great Tool** By John H. Arnold A very useful book of phrases to help bolster those who are studying Spanish. 0 of 0 people found the following review helpful. 30 dollars not 100 !
