They are neat, easy to fold and don't get messed up or torn. We have GPS but sometimes it takes us down roads we would prefer not to travel. I always like a backup map!1 of 1 people found the following review helpful. Great product!!By S. HibdonGreat map series. I highly recommend any state map of this type! For one that uses good old fashion paper maps, this product is for you.I also use these to confirm what my GPS says! Nothing like redundancy!! I have used the free state maps you get from welcome centers or other venues when travelling had problems with them tearing along the folds or simply wearing out. This eliminates this problem. These maps should last indefinitely with the economy tanking, I don't expect any radical changes or many new hwy's to be built in the near future. However should there be new highways, these maps could easily be drawn on with any marker to modify the map. Great product well worth the \$!0 of 0 people found the following review helpful. Wonderfully handy maps the Laminated little jewels!By SkyeisleI use these for genealogy purposes with a plan to use them to travel there for family history research. I love how well they fold and unfold then tuck away beside my chair or bed with their adjoining state mates. Very slim. Very durable. They will last a long time and really - their ability to fold flat to nothing without crumpling is a real plus!
