But I needed something to be used during my motorcycle trips that would stand up to inclement weather without being damaged. I will say I love these plastic coated maps. They fold up really easily, don't get all tangled because of the wind and are very clear and bright. You can even use a dry-erase marker to highlight areas of interests or routes. They cost a little more and are not extremely detailed, but for using them to route a motorcycle trip and having them easy to grab, use and put away even in wet conditions is perfect. I use a GPS, but I still carry maps every time I ride. I own one of these maps for every Western State and every state I plan on visiting. These are great. 5 Stars without any hesitation!!! 1 of 1 people found the following review helpful. I haven't even used it yet and I already love it! I won't actually be using it until June when I go to Colorado but I have looked it over and it is easy to read and will be easy to pack! 2 of 2 people found the following review helpful. This map is the greatest! By akboy This map is the greatest! I lived in CO for most of my life and I think this map is just perfect because it shows me at a glance how to go from one great ride to another. There are so many good places to ride and this map ranks them for me, so I can see what other people think, plus I "found" some new roads to ride. I spent a lot more money on the TAT map and found it hard to read and I didn't always agree with TAT's opinion.

The durable and convenient Colorado EasyToFold state map will take all the wear and tear your journey can dish out.
