If Rand McNally has updated maps, why didn't I receive an updated one?????4 of 4 people found the following review helpful. Spillproof, accurate and fun!By Madeline R.I am really old-school about "real maps". I bought them for the entire Midwest and all southern states when we moved to Chicago from the west five years ago and have been using them on road trips ever since. When our family went to a drive-through coffee establishment early one morning this spring break in eastern Kansas, our barista said, "I remember maps! Where are you going? Don't you have a smart phone?" In fact, the three of us had four of them between us, but if you want to get a real sense of the distance between places then a "real map" is the ne plus ultra. I placed six of these RM maps border-to-border on a hotel bed our first night of a 2,150 mile journey looking at colleges and our son finally appreciated (if not the effort we were making on his behalf, then at least) the journey he'd be making to and from Chicago to the college of his choice. If you're expecting detail, do not get this map.By SteveI bought this map for a bicycle trip in case it rained, but i ended up not bring it at all. I expected this map to be on-par with highway maps in terms of detail, but I was disappointed by how small it really was. Don't try to navigate with this map unless you plan to only stay on major roads.
