**Rand McNally : Easy To Fold: Montana, Wyoming (Rand McNally Easyfinder)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Easy To Fold: Montana, Wyoming (Rand McNally Easyfinder):

It is very small, which makes it handier, but it could be much larger. It would be great if it was this size but was only half Montana one side and half Montana on the other side. Wyoming should have its own map separate that you could get instead. Either way it was great to have as service is very sparse in a lot of Montana. Lots of towns and detail considering the small size. I am an old soul who really likes to use a map, but it was pretty special seeing my millennial girlfriend with a flashlight and map out at night navigating by landmarks, street names, and mile markers while I drove. Would buy again. 0 of 0 people found the following review helpful. Map size looks pretty small - No map scale information! By Jens GottlberOnly three stars because I expected a way more detailed map. I.e. you have the whole State Wyoming on two pages size A4. Wyoming is nearly 3/4 the size of whole Germany. In Germany you get a road Atlas of 100 pages and more. I did not expect that at all because the population is much smaller in W. but I expected the map a little bit more detailed. There should be also a scale at the map or at least it should be mentioned in the description of the map. The scale of Rand McNally Wyoming map is 1:2,04 million or 1cm = 20,4km (1 inch = 32,3 miles) compared to a detailed German map 1:0,2 million or 1cm = 2km. With such an information you know much better what you will get in the end. Rand McNally maps getting always very good ratings. That's why I hope the map size is good enough for the big size of the state?! The quality of the map looks really good to me! 0 of 0 people found the following review helpful. Hard to kill. By S.L. McKinleyWhat can I say? It's a well made laminated map. It works. I'll buy more for all my camping bags and vehicles. I liked the old originals better but this will do.
