Great for the roadtrips!By LacelleI love how this is divided into sections so you can see one area at a time on one side and most of the state on the other side (they NEVER make the maps big enough for Texas to fit on one side). It has a nice finish so after your roadtrip, and after marking your route, you can clean it off. You don't have to worry about a huge map that will stay forever ruffled, torn, and creased. The map also has good markings as to points of interest.0 of 0 people found the following review helpful. Too Much City Detail vs. StateBy Michael GallagherThe map is easy to fold and fits conveniently in your glove box. Sure, the major roads are there but you lose a lot of detail on the state map as various cities are really expanded, leaving a lot of detail off of other roads as well as markers identifying highways and farm-to-market roads; you know there is a road there but you don't know what it is as too much of the map's real estate was given to the cities vs. a true state map.1 of 1 people found the following review helpful. The map is really small and the detail is difficult ...By DLDmnyThe map is really small and the detail is difficult to read. I had an earlier version that had less detail and was easier to use.
