**Daisy Kunstaetter, Robert Kunstaetter : Ecuador Footprint Dream Trip** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ecuador Footprint Dream Trip:

information about which tours on Galapagos are interesting, or where it's best to base yourself. And almost no guidance on the rainforest lodges available. Even the Quito section, which should have been really helpful, was a cursory overview and no detailed recommendations on lodging - out of 350 hotels I think they listed 5 or 6. Wish I'd bought a different guide. I'm going to donate this to my library so my money isn't totally wasted. 1 of 1 people found the following review helpful.
