Pham Viet Hoa, Kevin Healey : Ecuador, Quito, Guayaquil, Galapagos before purchasing it in order to gage whether or not it would be worth my time, and all praised Ecuador, Quito, Guayaquil, Galapagos:

Ecuador is popular with travelers. Not only is it an interesting country and visitor friendly, it is the access point to the Galapagos Islands - one of Earth's treasures. Much of the eastern half of the country is relatively pristine jungle with few roads, although there are numerous resort/jungle lodges in place, particularly along the Rio Napo. These are mostly for adventure travelers, but there are also posadas, haciendas, and excellent hotels throughout the country, and good roads for exploring. Although it would be best for visitors to obtain detailed maps of Quito and of the Galapagos area, this map includes inset maps of central Quito and most of the Galapagos area. Legend Includes: Roads by classification, Rivers and Lakes, National Park, Airports, Points of Interests, Mining, Highways, Main Roads, Zoos, Fishing, , and much more...
