John Paul Rathbone : Ecuador, The Galpagos Colombia (Cadogan Guides) before purchasing it in order to gage
whether or not it would be worth my time, and all praised Ecuador, The Galpagos Colombia (Cadogan Guides):

The quality of writing in this British series is exceptional. From practical facts to history, customs, sightseeing, food and lodging, the Cadogan Series can be counted on for interesting detail, intelligently organized, well researched, with informed recommendations. The General Information gives climate, best times to visit, budgeting and expenses, what to expect with regard to lodging and food, security and dangerous areas. Great inside tips on beaches, festivals, markets, and nightlife. Each country section includes an Introduction followed by local practical information, then the Topics section is a series of short excursions features of Latin American culture and history, then the country's history and last a country-wide gazetteer. This guide is easy to use designed for quick reference with 12 maps, 24 illustrations, and a full color Galpagos Wildlife Guide. There is a Glossary, Bibliography, and s eparate Indexes to both countries.
