Most entertaining history I've read in yearsBy R. A. KlubeckRonald Jager is an exquisite writer - his poignant memoire of life on the farm in 1930s - `50s McBain, Michigan was engrossing and funny at the same time. I recently spent a year working in McBain, and it was delightful to hear about the founding of their Christian high school and other icons around the town. I cannot recommend this highly enough.Reg KlubeckCadillac, MI1 of 1 people found the following review helpful. A charming backward look.By

inland sailor When we are arguably in the midst of a Second Depression, this little reflective book gives us insight into what the First Great Depression must have been like away from the large cities. The author discusses the hard times and the not so hard times of growing up during this time. The comparisons one could make are a little scary but charming.

Elegy for a Family Farm Foreword by Donald Hall

From Publishers Weekly Jager, formerly a professor of philosophy at Yale, details the Michigan family farm that he grew up on in the 1930s. Copyright 1992 Reed Business Information, Inc. From School Library Journal YA-- Jager's account of growing up on the family farm in Michigan during the 1940s captures the wholesome spirit of yesterday. He takes readers inside his life as he relives his memories from early childhood to adulthood. The book is well written, entertaining, and heartwarming. Slow to begin, it picks up speed, and the author's voice seems to reach readers in a comforting sort of way. Whether urban or rural, YAs will be able to identify with the feelings and experiences of this family.- Jeanette M. Lippencott, W. T.
