Either print on both sides and make it half the overall size, or put something useful on there. 0 of 0 people found the following review helpful. nice By Roland Good map for my purposes. Nice quality paper that seems durable. I carry it with me when in Emigrant in case I get lost. 2 of 2 people found the following review helpful. No Decision Required By Trailblazer If Tom Harrison covers an area that you are going, I suggest you buy the map. Not a tough choice. His graphics are great and the maps are accurate and easy to use. We've hiked the Sierra for decades and have seen about every map available. You should also buy 7.5 USGS quads if you plan on off-trail hiking, but for the overall base map you won't find better.

This Shaded relief topographic map of the Emigrant Wilderness area shows hiking and mountain biking 5 trails, camping areas, access, and more. The contour interval will be 80 feet, scale will be 1:63360 (one inch to the mile). Printed on waterproof and tear resistant material
