National Geographic's Classic style wall map of England and Wales (Cymru) provides exceptional detail of two of the three regions that make up the island of Great Britain. The map features a bright color palette with blue oceans and terrain detailed in stunning shaded relief that has been a hallmark of National Geographic wall maps for over 75 years. Administrative divisions are clearly defined and thousands of place names including cities, historical sites, bodies of water, national parks, and more are shown. The region's transportation infrastructure is detailed as well, with clearly

indicated roads, motorways, airports, canals, ferry routes, and high-speed and passenger railroads. Coastal bathymetry is shown with depth curves and soundings. In addition to England and Wales (Cymru), coverage includes portions of Scotland, Northern Ireland, Ireland, and France. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:868,000 Sheet Size = 30" x 36"
