**National Geographic Maps - Reference : England and Wales Executive [Tubed] (National Geographic Reference Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised England and Wales Executive [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Size is weird for framing By FreeSpiritI gave this 3 stars because of the size. I wanted a map to frame and hang on my wall. It's 30 x 36 and that is not an ordinary frame size. A custom frame runs about \$150 and not worth it. I had to cut the map to fit the largest poster frame I could find in local stores. I would have liked to frame it without chopping off the sides. :( Yes, I know this is a reference map but I still wanted to frame my favorite country. It arrived in a tube with no fold lines. The paper is thick and durable. I did not buy the laminated one because I was going to frame it, but that would be even more durable if needed. 0 of 0 people found the following review helpful. Five Stars By ScottyCameron Great map. Highly detailed. 0 of 0 people found the following review helpful. Four Stars By kathy hieatt It arrived wrinkled and creased.

England and Wales (Cymru) are presented in exceptional detail in National Geographic's Executive style wall map. As attractive as it is functional, this map features an antique color palette, stunning shaded relief, and a subtle background grid pattern that echoes the cartographic precision that underlies all National Geographic maps. This map includes thousands of place names including Welsh and Manx names, transportation networks, and administrative divisions. National Parks, historical sites, roads, motorways, airports, canals, oil pipelines, and passenger and high-speed railroads are shown. In addition to England and Wales (Cymru), coverage includes portions of Scotland, Northern Ireland, Ireland, and France. The map is packaged in a two-inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:868,420 Sheet Size = 30" x 36"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
