It's loaded with just about every phrase you could think of dealing with relationships, love, friendship, etc. One does not even need to have a command of Russian to use the book. In addition, there is quite a bit of practical information such as Russian customs, laws, holidays, names, etc. As

someone who speaks some Russian I also found the book to be a good grammar and Russian language tutorial. Definitely a book worth every penny. 0 of 0 people found the following review helpful. Great language dictionary By R. Sutton I've had the pleasure of adding this one to my Russian language studies, and I have used it to write my Russian girlfriend a love letter in the Cyrillic. (Although she can speak English) she thought it was very romantic. So, if you're involved with a lady from Russia or thinking about it, this is the book for you. Also good with a self study course. 0 of 0 people found the following review helpful. Four Stars By Customer good reading
