It is printed on waterproof paper and offers a lot of detail, and it is well arranged. There are a couple of things that keep it from a 5-star rating though. First, it is missing some campsites. In particular Alligator Creek and Shark Point Chickee are both missing from the map in the Florida Bay area. This is not a big deal as long as you have a secondary map, but it would be nice to have all campsites on this map. Also, they could have included more detail in Florida Bay. The channels are not shown on the map, and neither are any of the numbered navigation buoys. I know this info is better obtained from the nautical charts, but it would be nice to have included some of it here. The area around Florida Bay is very uncluttered, so adding more detail would have been easy to do. The included critter finder is a nice bonus.1 of 1 people found the following review helpful. I thought it would be parts of the park on different pages in a booklet form. We will use it for planning, but probably not even take it with us on our trip0 of 2 people found the following review helpful.
