Tom has captured the big as well as little things of the adventure well. The story flows well and is never dull even when cycling in a dead flat, straight line across Death Valley. One gets a rare insight of middle Asia and its people. And what is so refreshing is Tom's experiences of the good in people he meets, no matter what religion,

class or nationality. A good down to earth read, I recommend this book to those who enjoy adventure and travel writing. 1 of 1 people found the following review helpful. ... the most captivating prose but his journey is a great undertaking with wonderful anecdotes By CustomerNot the most captivating prose but his journey is a great undertaking with wonderful anecdotes. It's actually much more interesting than many other well written bicycling stories out there. The book captures the spirit of raw adventure and you can't help but admire Tom's acceptance of other people and cultures and as well as his total determination toward the completion of his round the world journey. 0 of 0 people found the following review helpful. Enjoyable travelogue By C. Paterson Enjoyable read, a well written account of the author's circumnavigation of the world by bicycle. What comes through is the universal kindness shown to travelers from China to Alabama. I have to admire the authors courage throughout, and perhaps this kind of trip is more dangerous than it used to be, but it should inspire others to challenge themselves ,whether . It's a journey of this magnitude or simply testing yourself in other ways.

'A challenge that tested Tom to his limit but in return gave him more than he could ever have imagined.' - Bear Grylls Every Inch of the Way is a great page turning adventure which is as close as you can get, without actually saddling up and pedalling yourself into the unknown. It takes real magic to turn a great adventure, into a great book. For one thing, most people can't relate to the mindset of the long distance cyclist and I found myself laughing along to Tom's thoughts and observations, wondering if they were in - jokes, shared by those who had seen the world at the speed of a bike, for example his relationship with Serbia's stray dogs! . But his anecdotes have a great balance of the cultures and places, as opposed to just inward reflections, so I am sure would be enjoyed by anyone with an interest in travel and human experience. A lovely story, written from the heart. - Mark Beaumont (around the world record breaking cyclist and adventurer) This was the journey that changed my life. I had dreamed about it for so long, but I never actually thought I'd complete a trip around the globe by bike. It started off as seed in the back of my mind, that grew and grew until the idea consumed me. In March 2011 I set off on the adventure of a lifetime, from my front door, across Europe, Asia and finally the USA. I spent nights in people's houses all over the world, slept in Yurts, camped with nomads, ate delicious food ranging from Tibetan stew to alligator meat, drunk home-made Georgian wine, was given clothes, partied with Kazakhs on the Caspian Sea ferry, saw photos of USSR soldiers in front of statues of Lenin, saw Stalin's house the Grand Canyon and the Great Wall. I cycled through sweltering deserts and over huge mountains. I overcame mechanical problems with the help of an Azerbaijani mechanic and illness due to the kindness of a Tajik Pamiri doctor. On the way I cycled with local people and friends, both old and new. I've written this book to share my story and the amazing experiences that I had. It's not a book full of arty descriptions about beautiful places, it doesn't have any clever metaphors; it's just my story. It tells the story of a normal person spending nine months experiencing the world from the saddle of a bike. I've included bits of history, observations about people's daily life, comparisons of countries and my own opinions as my story is told. There are black and white photos included in the book too and colour photos in the ebook version. I only had one rule; I had to make it round the world on a bike: every inch of the way. I hope you enjoy my story; it will be great to have you along for the ride... The book contains around 100 photos and maps (in black and white in the hard copy).
