Percy Fawcett : Exploration Fawcett: Journey to the Lost City of Z before purchasing it in order to gage whether or not it would be worth my time, and all praised Exploration Fawcett: Journey to the Lost City of Z:

0 of 0 people found the following review helpful. Interesting book.By Gale HesterVery interesting book. It sparks your imagination. A trip to the rainforest would be just the thing.It arrived quickly and in perfect shape.0 of 0 people found the following review helpful. Great Adventure ReadBy Maggie21Excellent account of Fawcett's expeditions that takes

up each expedition in chronological order. There is a map included in the book with each expedition route marked. 0 of 0 people found the following review helpful. love theBy Austin GistVery interesting, love the book

The true story of the real Colonel Fawcett and his mysterious disappearance in the Amazon jungle, considered one of the greatest mysteries of the twentieth centuryThe inspiration for the major motion picture "The Lost City of Z," mystic and legendary British explorer Colonel Percy Harrison Fawcett spent 10 years wandering the forests and death-filled rivers of Brazil in search of a fabled lost city. Finally, convinced that he had discovered the location, he set out for the last time toward destination Z in 1925, never to be heard from again.This thrilling and mysterious account of Fawcett's ten years of travels in deadly jungles and forests in search of a secret city was compiled by his younger son, Fawcett's companion on his journeys, from manuscripts, letters, and logbooks. An international sensation when it was first published in 1953, *Exploration Fawcett* was praised by the likes of Graham Greene and Harold Nicolson, and found its way to Ernest Hemingway's bookshelf. Reckless and inspired, full of fortitude and doom, this is a book to rival *Heart of Darkness*, except that the harrowing accounts described in its pages are completely true. To this day, Colonel Fawcett's disappearance remains a great mystery.
