Sharry Buckner : Exploring Texas with Children before purchasing it in order to gage whether or not it would be worth my time, and all praised Exploring Texas with Children:

0 of 0 people found the following review helpful. Best book for trips w/kidsBy Ann KillebrewOne of the best books out there to help plan a trip with children - of any age.4 of 4 people found the following review helpful. IF I COULD ONLY KEEP MY COPY HOMEBy GramiLovesBooksI thought this would be the perfect book since I have eleven

grandchildren and would love showing them (one at a time, I don't lack ALL my senses) our great state! And I was, the book was everything I expected and more. Only thing is, I always have to hunt it down and find who borrowed it last. From my own kids to my brothers and sisters, I never know exactly where it is. Guess I need to order everyone their own copy!! Keep that in mind when you get yours. It's a wonderful guide to all the places you know about and so SO many you don't. If you're planning on traveling Texas with your lil' rugrats, you need this book! It'll will guarantee a good time for all.3 of 3 people found the following review helpful. Great guide for family travelBy Linda AckerA travel guide for families that hits the highlights of Texas without complicating the trip planning with too many details. Only problem is that phone numbers (at least area codes) keep changing, but this book lists web pages to help a family get more information on the part of the state they want to see.

Author Sharry Buckner travels all over the state as an inspector of bed and breakfasts and is familiar with most every city and small town. She has collected information about interesting places everywhere, especially the lesser- known attractions and activities for children. Using this book as a trip planner, families can experience adventures they might never have discovered on their own, and they can plan trips suited exactly to their time and budget.Exploring Texas with Children is a well-done family guide for traveling Texas. Enjoy the read and the ride.
