The price of the original book (the real one from which it was copied) was \$7.95, and a sticker on the side indicates that the knock-ff was sold somewhere for \$1.99. I have now paid \$9.98 plus shipping for a used \$2 book with significant wear and water damage.Buyer beware--this is not what it

claims to be. 1 of 1 people found the following review helpful. Helpful handbook By Angelthreads This little book is filled with phrases one may encounter daily during travel to China. It is also small and compact so that it won't add bulk to your backpack or purse. I recommend getting familiar with the layout of the book before you go. 0 of 0 people found the following review helpful. love these phrasebooks By D.A.
