Wilderness Press : MAP San Gabriel Mountains before purchasing it in order to gage whether or not it would be worth my time, and all praised MAP San Gabriel Mountains:

itself is useful, large enough print. For me, I prefer tiny print but more detail but this works for someone trying to find their way around. Even still, this would be fine, BUT I haven't even used the map yet, just unfolded it on my desk and it already started ripping along one of the seams. I have a feeling it won't survive the first hike I take it on. 1 of 1 people found the following review helpful. I highly recommend hiking there and elsewhere and use this guide when I go there. 4 of 4 people found the following review helpful. Great map By Karyn Catone All I have to say about this map is: If you spend any time in the San Gabriel's hiking or camping, this map is a workhorse. I know them mountains like the back of my hand, and this map even helps me. Mostly, it helps with locating recreation areas, like wilderness campsites and such. I do not like camping in developed camp sites that charge nightly, this map has so many remote wilderness campsites that I have trouble picking which one to hike to on any given weekend. This map is awesome, even without the book that it accompanies.

Covers all of the roads, trails, campgrounds, picnic areas, observatories, ranches, and Forest Service stations in the San Gabriel Mountains, and includes detail maps of the areas around Liebre Mountain, Big Tujunga, Crystal Lake, Mt. Baldy, and Northern Pasadena.
