MapEasy : MapEasy's Guidemap to Las Vegas, NV before purchasing it in order to gage whether or not it would be worth my time, and all praised MapEasy's Guidemap to Las Vegas, NV:

1 of 1 people found the following review helpful. Dated map with limited informationsBy lovedoriI always liked maps from this company..(especially the one for New York). But this Las Vegas map was quite dated so there were a lot of missing things on the map of "the strip" such as the crystals, Hotel Aria and etc. Also, the map has long descriptions for each hotel it has on the map (lists of restaurants, shows, and etc) but the names of hotel were hard to notice. I had to look at the map several times until I realized where my hotel was on the map. Unless MapEasy update this map soon, I won't recommend to buy this map to your trip. I actually bought Fodor's Las Vegas 2011 and the map included in this book was pretty helpful.0 of 0 people found the following review helpful. Five StarsBy denene r vincentI love MapEasy Guidemaps

This MapEasy guidemap of Las Vegas, Nevada includes detailed maps for The Strip, a regional map of the Southern Nevada area, and the South Rim Village in Grand Canyon National Park,.
