Delorme Mapping Company : Massachusetts Atlas Gazetteer before purchasing it in order to gauge whether or not it would be worth my time, and all praised Massachusetts Atlas Gazetteer:

0 of 0 people found the following review helpful. Bobby's BrooksBy Bobby C. KilbyExcellent map book of the commonwealth of Massachusetts. Details are clear and travel throughout should be easier with this publication.1 of 1 people found the following review helpful. Great for finding out-of-the-way placesBy Doug ErlandsonIf you're looking for a city map showing all the streets find a map designed for that purpose (or get a GPS). The reason for the Delorme Atlas and Gazetteer is not to replace maps of urban areas but to provide a topographical map that shows the details of a state's rural areas that can't be found on the typical roadmap. I discovered this not long ago when I had the

opportunity to visit western Massachusetts, especially the Berkshires. Because the gazetteer shows secondary roads not found on the roadmap I had with me, I was able to get to some obscure places, including picturesque streams and ponds. Also, I was able to find hiking trails that aren't on a normal roadmap. While it is true that the city maps are too small to be really useful, this is the aid to have with you when you're exploring any other part of the state, whether the western part or Cape Cod.

By A Customer

The 80-page book is loaded with topographic maps showing in detail important information, like trails, rivers, forests, hills, and more. The Gazetteer is loaded with important information such as state and recreational areas, hiking and biking trails, paddling opportunities, golf courses, wildlife viewing areas, downhill and cross-country skiing areas, private campgrounds throughout the state, museums and attractions, and city maps of Boston, Springfield, and Worcester. For example, under wildlife viewing is listed Barre Falls Dam Project. Barre is famous for song/perching birds, upland birds, hooped mammals, barrier free access, parking, picnic areas, restrooms, hiking, non-motorized boating, cross-country skiing, hiking. Folks! I have been here and what is listed is 100 percent true.

Armand J. Courchaine, The Mansfield Buzz, May 27, 1999

Very clean, in a very good condition, no notes or highlighting inside, it is in a very good shape, ship fast.
