A COMPLETE AND INSIGHTFUL GUIDE...WELL WORTH THE PRICEBy themanI thought that mr feldman's guide to women was very complete and insightful, not to mention funny. He obviously has spent quite a bit of time in medellin and has a lot of experience with medellin women and colombian culture in general. I find that when i hit the internet to search for information about travel, especially mens travel and meeting women in other countries, that i get a lot of dubious and incomplete information, so having mr feldman's guide to refer to with it's list of encyclopedic info and personal stories, really made me feel like i could get a good idea of what it would be like to go to colombia and try to meet women on my own. the guide has a lot of in depth info on the prostitution scene there, personal stories from Mr. feldman's life as well as an extended....data sheet. He also talks about all of the factors involved in meeting non prostitutes and how that played out for him in colombia. not unlike roosh v's work if you are familiar with that, but more focused on pay for play and less on picking up women, although both are covered. a wealth of knowledge and experience, it really helped me and was an entertaining read. After reading this book, I felt like i understood the scene in medellin and how to go about meeting and banging women on day one of arriving in the country.
