feature. 1 of 4 people found the following review helpful. The best guide to Colombia By Mark If you are a single man planning to travel to Colombia, this book is essential. It has addresses, practical tips, everything which is very difficult to find on the web. Highly recommended!

For the single or 'wish I were single' traveler to Colombia. Whether traveling with significant other or without this guide is the ideal companion to both study and quickly reference the best adult establishments by city and suburb in Colombia. Details down to addresses, some reviews and even phone numbers to check if they are open in that 1 hour window that you have.
