**National Geographic Maps - Reference : Mexico Executive [Laminated] (National Geographic Reference Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mexico Executive [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Five StarsBy CustomerGreat map.0 of 0 people found the following review helpful. I love this map!By elderberryjamI did not take Spanish in High School. I took three years of German, and one of French. Last fall, I took a trip to the border to visit several charities providing services to deported immigrants, and standing up for their basic human rights. I have been reading about it ever since. Prior to that, I knew where Mexico was on a map, but knew nothing about it. I have put this on the wall to refer to while reading in my office.1 of 1 people found the following review helpful. Its very hard to read. The colors just blend ...By luvabullIts very hard to read. The colors just blend together so its hard to find detail.

National Geographics Executive style wall map of Mexico is one of the largest and most detailed maps of the country. It features thousands of place names, accurate political boundaries, national parks including Cumbres de Monterrey National Park, biosphere reserves including El Vizcaino Biosphere Reserve, archeological sites including the ruins of the Yucatan Peninsula, and major infrastructure networks such as highways, roads, canals, ferry routes, railroads, oil fields and airports. Mexico's diverse terrain is detailed with accurate shaded relief including areas of sand, intermittent and dry lakes, swamps, lava fields and coastal bathymetry. The map is rendered in an antique-inspired color palette, making it as stunning as it is informative.The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the fames can be much lighter and less expensive. Map Scale = 1:4,370,000Sheet Size = 34.5" x 22.75"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National

Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
