Michelin : Michelin Map Africa Northeast Arabia 745 (Maps/Country (Michelin)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Michelin Map Africa Northeast Arabia 745

(Maps/Country (Michelin)):

0 of 0 people found the following review helpful. This is the best large scale (1:4,000,000) map of Africa. By Ron Choong This is the best large scale (1:4,000,000) map of Africa. I combined 3 of them to cover Africa and Saudi Arabia. However, missing were the West African islands of So Tom e Prncipe. I have used it for most of my overland and coastal trips across Africa and will use it to plan my upcoming journey to Saudi Arabia, the Democratic Republic of Congo, Mali and Chad. It is not suitable for any hope of survival on an expedition because it is made of 8lb paper. What I do is take high resolution photographs of various segments (38) and bring them with me in my iPad Pro 12.9". 2 of 2 people found the following review helpful. Good readability, reliable information By Paolo Palmero Michelin maps are reliable, updated and easy to read. I find their coverage of Africa better than other options. Boundaries are updated to the latest international agreements (or disagreements as a matter of fact). The roads layer seems to reflect what actually happens on the ground, given the feedback I receive. I would certainly recommend it to travelers or fellow cartographers like me. 0 of 0 people found the following review helpful. NICE DETAIL, BUT SUPER THIN PAPER By Stephen S. NICE DETAIL, BUT SUPER THIN PAPER. I WOULDN'T DARE OPEN THIS MAP IN THE WIND, IT WOULD WRIP INTO PIECES.

Renowned for over 100 years for their clear, accurate and easy to read mapping, Michelin Country maps give travelers an overall picture of their route, with practical road and travel information. The series revamped cover, still in Michelin's traditional red for the country map collection, sports a simple mini-map for easy orientation, as well as a colorful destination photo.
