He loves all the Mickey's Clubhouse characters and there are enough flaps to open and shut to make the book interesting for a decent length of time. I also like that it doesn't weigh a ton, but is still sturdy and he is not likely to ruin the tabs any time soon. He still goes through it on a regular basis at home, and I like that it covers so many different things such as color, shape, counting along with the more general story. Definitely a good buy for a toddler on a trip! 2 of 2 people found the following review helpful. Road-trip Necessity By Nicole M Well, it's MICKEY!!!!!!!!!!!!!!!!!!!! My son is obsessed and this book is a LIFE SAVER. It has kept him entertained in some many situations that i needed him to be quiet or to calm down. The flaps are so fun and do not fall apart or tear like alot of books with these flaps do. The colors are vibrant, all the characters are there, and I think this book will be around our house for a while. I have to admit that the storyline is not super interesting, but that isn't really necessary with all the flaps and images and colors. 2 of 2 people found the following review helpful. I would recommend for any toddler who is a Mickey Mouse fan ... By Kelly My 2-year-old son LOVES this book. He wants us to read it to him every night before bed. The book tells a story, but each page has its own theme and subtly teaches colors, numbers, animals, etc. This was a birthday gift for him 3 months ago and the book has held up fairly well to the rough handling of a toddler. All of the flaps are still intact. I would recommend for any toddler who is a Mickey Mouse fan or who enjoys interactive books.
