National Geographic Maps - Reference : Middle East Classic [Laminated] before purchasing it in order to gage whether or not it would be worth my time, and all praised Middle East Classic [Laminated]:

1 of 1 people found the following review helpful. Great MapBy JimExcellent quality, nicely defined borders. Would have liked to see it include a little more land area or be an inch or two larger in dimensions. Good map overall. The area of Israel, Jordan, Lebanon etc should be larger or have a zoomed in view to make seeing the details of their regions easier. The laminate was a nice touch. Good colors.7 of 7 people found the following review helpful. A beautiful mapBy marcus_abroadThis map is a wonderful reference tool for the region. I am currently teaching in Iraq and this map has pride of place on the classroom wall. Every break between classes my students cluster around the map and point out places - their hometowns, our current location, and so on. It helps to create a great learning environment.0 of 0 people found the following review helpful. Five StarsBy Dennis AdamsGreat map and detailed, I like! Should last for many, many years to come.

National Geographic's map of the Middle East covers a broad geographic area ranging from northern Africa through the Fertile Crescent to the western edge of China and India. Includes complete coverage of Afghanistan, Pakistan, Tajikistan, Iran, Iraq, Kuwait, Syria, Israel, Jordan, Lebanon, Saudi Arabia, Qatar, Bahrain, United Arab Emirates, Yemen, Oman, Cyprus, and Eritrea. Also includes parts of India, China, Kyrgyzstan, Uzbekistan, Turkmenistan, Azerbaijan, Armenia, Turkey, Egypt, Sudan, Ethiopia, and Djibouti.Features thousands of place names, accurate political boundaries, archeological sites, and major infrastructure networks such as roads, canals, ferry routes, airports, and railroads. The region's diverse terrain is detailed through accurate shaded relief, coastal bathymetry, and symbolism for water features and other land forms. Elevations of major peaks and depth soundings are expressed in

meters. The signature Classic style map uses a bright, easy to read color palette featuring blue oceans and stunning shaded relief that has been featured on National Geographic wall maps for over 75 years. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:6,083,000 Sheet Size = 30.25" x 23.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
