The owner of the bungalows I thought to stay at laughed at the quoted rate that was about 10% of what he wanted. This happened in Turkey, Jordan, Egypt, Israel and of course Palestine. I use Lonely Planet all the time and this is the first time I have been disappointed.The general knowledge seemed up to LPs normal quality.0 of 0 people found the following review helpful. Lonely Panet: Middle EastBy David M.This book is great. We used it for travel in Egypt, Jordan and Israel during June 2011. We found it to be accurate for suggested lodging, eating places, transportation, Visas, and suggested activities, although some prices had risen since publishing. My only complaint (a small one)is that sometimes prices listed for taxis were ambiguous as to whether cost was per person or per vehicle.
