before purchasing it in order to gage whether or not it would be worth my time, and all praised Moab South (National Geographic Trails Illustrated Map):

A year or so ago they were available on line by subscription so custom maps could be prepared of each trip. This took care of the minor problem of the physical size of the map sheets.0 of 0 people found the following review helpful. There are better choices for OHV enthusiasts...By CustomerThere are better map products out there if you are an off-highway vehicle enthusiast. I ride dual sport bikes and got better info online and at the Moab visitor center. Save your money! Probably OK for hiking...0 of 0 people found the following review helpful. Three StarsBy C BowserGreat maps but haven't been updated in about 3-4 years based on lack of newer MTB trails...Navajo rocks, etc.
