**Constantine N. Tsirpanlis : Modern Greek Idiom and Phrase Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Modern Greek Idiom and Phrase Book:

I bought several books which offered contrasting methods, and got nowhere. I wondered if I would ever really get it.Like Eliza Doolittle, this book did it for me! The way Prof. Tsirpanlis presents Greek grammar is so clear and simple that it all just clicked! I now feel confident that I will be able to master basic Greek grammar.If you're mainly interested in a phrase book, I would recommend the one by Lonely Planet, which offers a more extensive and up-to-date listing of common terms. But if you want to be able to read and really understand Greek, and feel confident conversing in Greek, this book is absolutely the best.0 of 0 people found the following review helpful. This thing is awesome!By Carne AsadaThis book as a lot of great Greek phrases. I am Greek and used it to learn some conversational phrases to joke with my grandmother and members of my Greek church.I have even given a copy to a friend who has little experience with any Greek.Make no mistake though, this is not a complete course in Hellenic Languages and is really just good for learning some basic conversational phrases to get around.0 of 0 people found the following review helpful. ExcellentBy Jeffrey M. Lawrencea wealth of information, organized by situation. Although mostly too advanced for a beginner like me, it promises to be useful for my entire Greek career.
